The GFC and doing it differently:

The GFC has been a mixed blessing for many of us, helping us to offer even better value and tap into the real needs of our clients. Our research has revealed that our iWAM client participants were interested in a more relaxing and retreat type training experience, flexible and reduced training fees and material that benefited themselves and their own businesses, as well being trained in a unique profiling system.

So...in September 2011 we piloted our first iWAM Retreat in the idyllic setting of Urunga (near Coffs Harbour NSW). We have re-grouped the Training into a Retreat type experience with an added focus on Coaches own businesses. Finally, we have reduced the cost of the total Training costs by \$700 while also absorbing the cost of 3 nights accommodation. These additions have been engineered while maintaining the world class material of the iWAM Master Class Certification.

Here is an appraisal by two of the participants who attended this pilot program:

“ You have such a natural open style and shared so much more than I have experienced from other courses. As I have said to my wife and others - this was about as good as it gets in terms of a training. Subject matter that is fascinating, a passionate and engaging teacher, location that was unique and energising and other students who all had similar careers and interests. Wow!”

Richard Burton Innerzone Pty Ltd , September 2011.

“ I highly recommend doing the iWAM Certification in Urunga with Marilyn Powell. Not just because iWAM is an amazing profiling tool that provides a real and measurable catalyst for change, but also because Marilyn is warm, enthusiastic and highly knowledgeable and Urunga is such a beautifully quiet place to create the atmosphere for you to really enjoy the experience!
